

Sensoril® Ashwagandha, a patented **plant-based adaptogen** supported by **14 clinical studies** to enhance adaptogenic health benefits.

Reduce Stress

Boost Energy

Improve Focus

77% of all people experience physical symptoms of stress regularly.

Sensoril® Ashwagandha supports:

Resilience to stress

Heart and vascular health

Mental health & wellbeing

Immune function

Stress-induced sleep disruption

WHY Sensoril® Ashwagandha

Unique, high-purity, patented water-only extract of ashwagandha roots + leaves for enhanced levels of bioactive compounds

Clinical research supported safety and efficacy

14 clinical studies and counting

Highest concentration of withanolide glycosides (>10%) from solvent-free extract

Powerful Adaptogen – lowest effective ashwagandha dose supported by clinical research = 125 mg/day

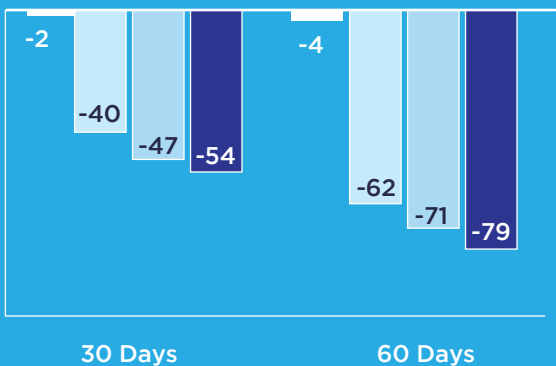

Highest (>90%) water solubility ashwagandha ingredient (great for drink mix and beverage applications)

Clinical effects of Sensoril® Ashwagandha

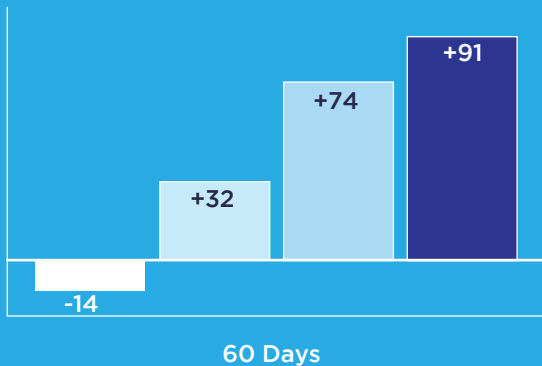

DECREASES overall stress and anxiety

mHAM-Anxiety Score
% change from the baseline

INCREASES stress tolerance

DHEAS: CORTISOL RATIO
% change from the baseline

Sensoril® Ashwagandha attributes

Solvent-Free, Water-Only Extract
Excellent solubility – great for beverage applications

Patented
US Patent 7,318,398 &
CA Patent 2,508,478

3 bioactives
Withanolide Glycosides (>10%)
Withaferin A (<0.5%)
Oligosaccharides (>32%)

Safe and effective
14 clinical studies and counting.
Commercially available for 16+ years
